

Assignment - 3

Name	Pradeep G
Roll No	SSNCE195001077
Date	19 September 2022
Team ID	PNT20222TMID53089
Project Name	Project - Personal Expense Tracker App

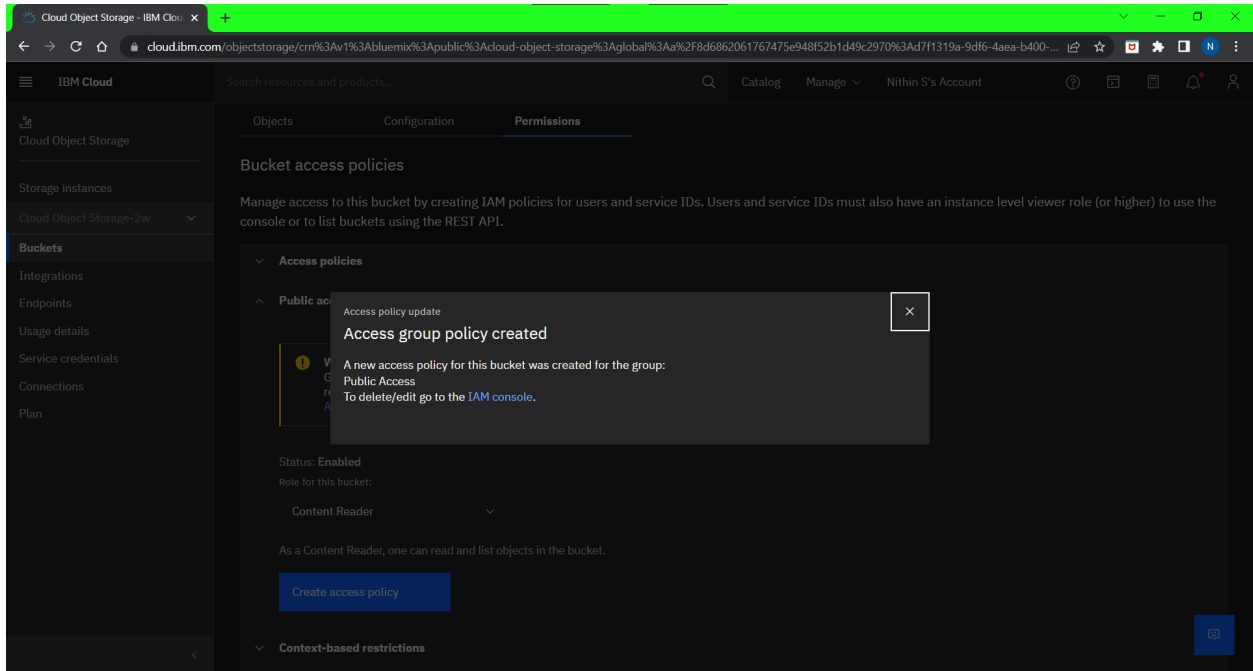

1. Create a Bucket in IBM object storage.

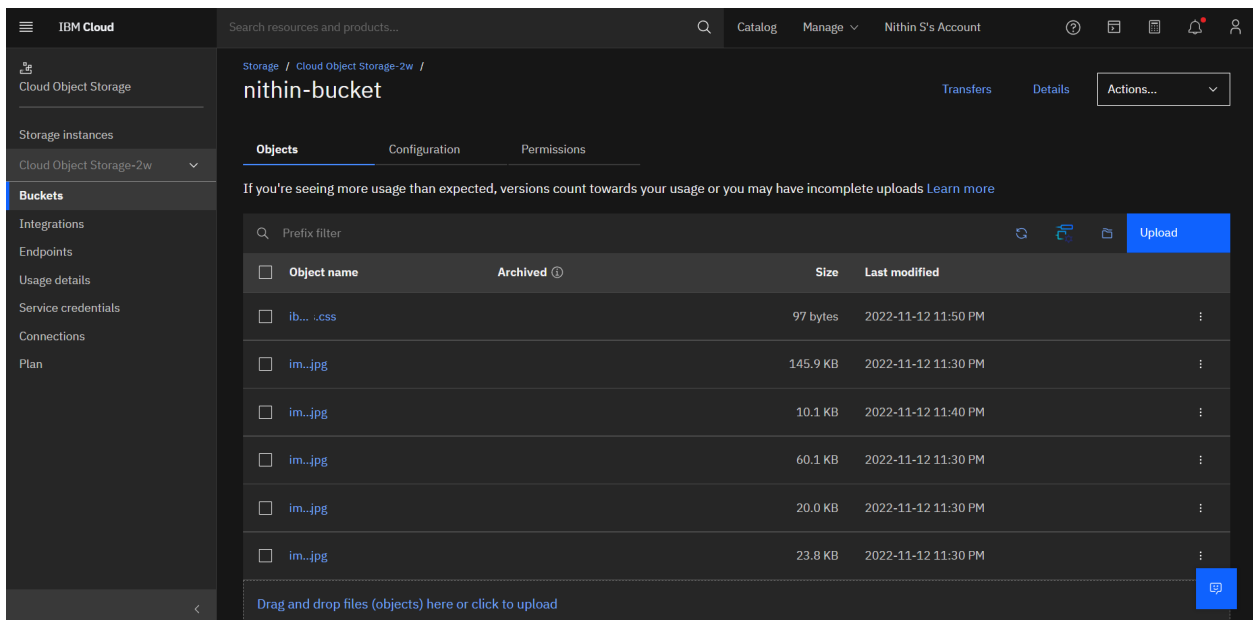

2. Upload 5 images to ibm object storage and make it public. write html code to display all the 5 images.

Making the bucket public:

Adding 5 images:

HTML code:

```
<!DOCTYPE html>
```

```
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta http-equiv="X-UA-Compatible" content="IE=edge">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Assignment 3</title>
  <style>
    img {
      width: 200px;
      height: 200px;
      padding: 10px;
    }
  </style>
</head>
<body>
  <title>Assignment</title>
  <h1>IBM Retrieve Images from cloud</h1>
  
  
  
  
  
</body>
</html>
```

Output:

IBM Retrieve Images from cloud

3. Upload a css page to the object storage and use the same page in your HTML code.

Object name	Archived	Size	Last modified
ibmcss.css		97 bytes	2022-11-12 11:50 PM
ibmcss.css		145.9 KB	2022-11-12 11:30 PM

.css" >
<title>Assignment</title>
</head>
<body>

<div id="imggal">
<h1>IBM Retrieve Images from cloud</h1>

</div>
</body>
</html>

```

Output: (Borders added)

IBM Retrieve Images from cloud

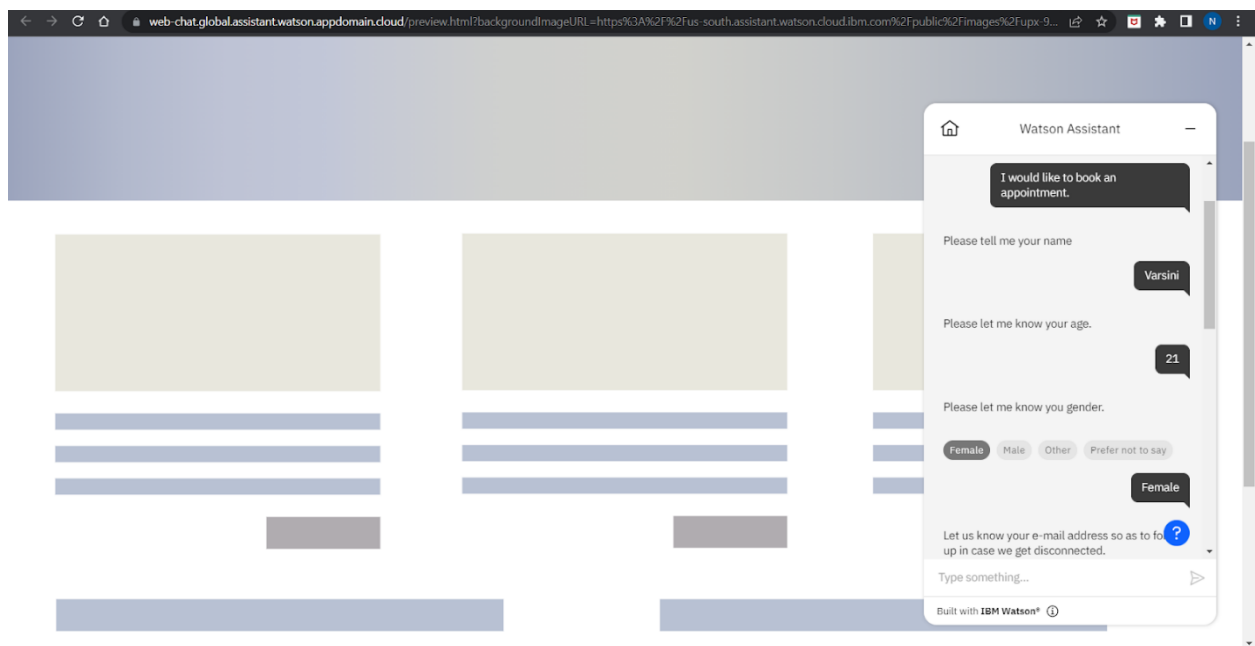

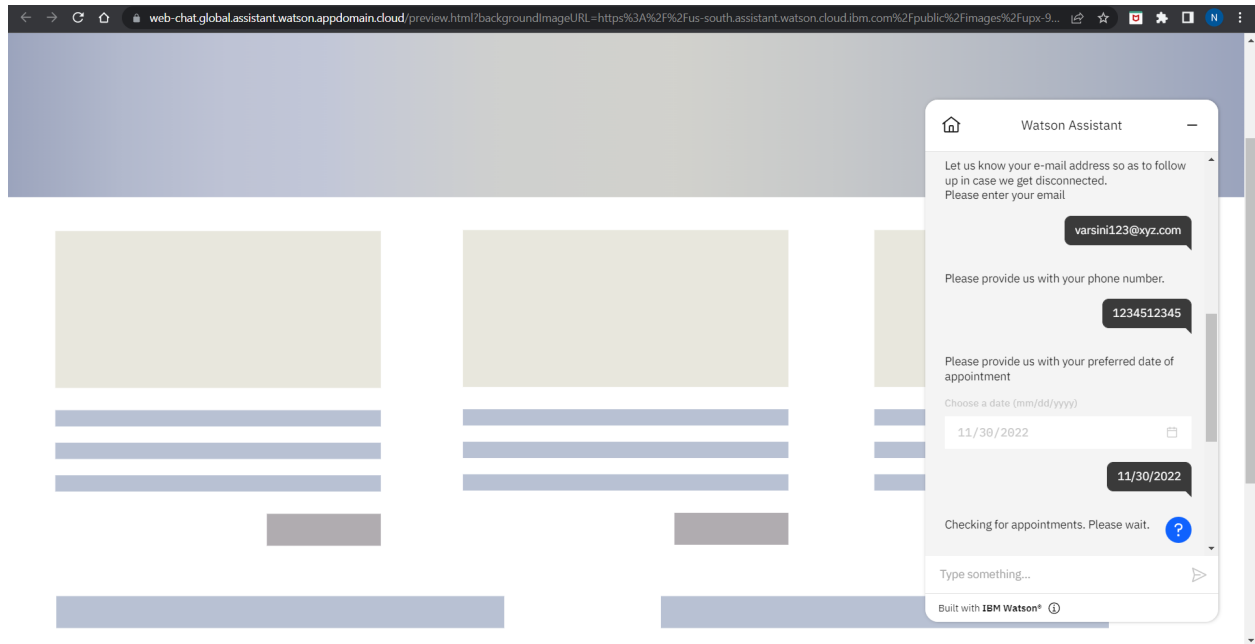

Design a chatbot using IBM Watson assistant for hospitals. Ex: User comes with a query to know the branches for that hospital in your city. Submit the web URL of that chat bot as an assignment.

Assistant link:

<https://web-chat.global.assistant.watson.appdomain.cloud/preview.html?backgroundImageURL=https%3A%2F%2Fus-south.assistant.watson.cloud.ibm.com%2Fpublic%2Fimages%2Fupx-99f2a8c1-6766-47aa-a798-82acfb382101%3A%3A62b51eab-32fe-4b12-a982-6614a2e6ddec&integrationID=9d50ff06-bcbe-4918-ac74-721d052b0567®ion=us-south&serviceInstanceID=99f2a8c1-6766-47aa-a798-82acfb382101>

OUTPUT

Create a Watson assistant service with 10 steps and use 3 conditions in it. Load that script in the HTML page.

The screenshot displays the IBM Watson Assistant console interface. At the top, the browser address bar shows the URL: `us-south.assistant.watson.cloud.ibm.com/crn%3Av1%3Abluemix%3Apublic%3Aconversation%3Aus-south%3Aa%2F8d6862061767475e948f52b1d49c2970%3A99f2a8c1-6766-47aa-...`. The page header includes "IBM Watson Assistant Lite", an "Upgrade" button, and a "hospital chatbo..." dropdown menu. On the right, there are links for "Learning center", a help icon, and a user profile icon.

The main content area is titled "Hi" and shows a conversation flow design. On the left, a sidebar titled "Conversation steps" lists four steps:

- Step 1: "Please tell me your name." with a "Free text" input type and a "Continue to next step" button.
- Step 2: "Please let me know your age." with a "Number" input type and a "Continue to next step" button.
- Step 3: "Please let me know your gender." with "Female", "Male", and "+2" buttons, and a "Continue to next step" button.
- Step 4: "Let us know your e-mail address so as to follow up in case we get disconnected. Please enter your..." with a "Regex" input type.

At the bottom of the sidebar is a "New step" button with a plus icon. The main area on the right is titled "Customer starts with:" and contains instructions: "Enter phrases that a customer types or says to start the conversation about a specific topic. These phrases determine the task, problem, or question your customer has. The more phrases you enter, the better your assistant can recognize what the customer wants." Below this, there is a section "Enter phrases your customer might use to start this action" with a "Total: 1" count. It includes an input field "Enter a phrase" and a list containing the phrase "I would like to book an appointment." with a delete icon.

At the bottom right of the main area is a "Preview" button with a play icon. The Windows taskbar at the very bottom shows the search bar, task view button, and several application icons, with the system clock indicating 02:08 PM on 14-11-2022.
